

The number one parking comparison site - The best providers... the most carparks... the best price!

Welcome to Airport Parking Shop's special summer update.

By now, you've probably already enjoyed a nice summer break or are planning one for later in the season. And with the summer we've been having over here in the UK, a nice sun soaked holiday can be a welcome break from the thunder storms, hail and humid days we've seen far too often this year.

However, while you've been enjoying your summer break, we at Airport Parking Shop have been busier than ever with adding new features to our websites, in the hope that they will be easier to use and more useful to our customers.

Normally, we'd include these updates in our normal monthly newsletter, but with so many additions already completed and with many more in the pipeline, there's just too much for a single newsletter.

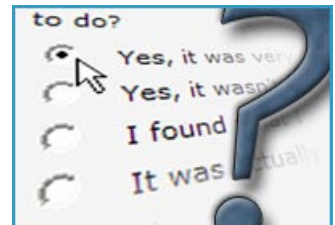

Read on to see exactly how your feedback from our online questionnaire has already been used to enhance your experience of using our service. And if you haven't already taken the questionnaire, then don't delay... help us to improve the service we offer you, and get a chance to [enter our competition](#) for a great Sony digital camera at the same time..

Interim Questionnaire Feedback

Even though there's still almost a month left until we pick a winner for our customer feedback questionnaire, the amount of feedback we have received so far has been outstanding. We would like to thank everyone who has already completed the questionnaire, the extra feedback that many of you have offered has been invaluable.

As a result of this feedback, we have made a quite a large change to the initial date selection part of our quoting system. We have modified this part of the quoting system with a mind to hopefully making the process of selecting depart and arrival dates much quicker and easier.

We're interested in knowing whether this change to the quoting system has made the process easier for you compared to having to select both day, month and year. If you haven't completed the customer feedback questionnaire yet, then this is a perfect place to tell us your thoughts on the new feature. If you have already completed the questionnaire, then we would still like to hear your thoughts on the change, simply [Email us here](#) to give us your opinion.

We're still very interested in getting your views on the Airport Parking Shop and [Airport Hotel Shop](#) websites, so if you haven't already completed our online questionnaire, why not take a couple of minutes and get a chance of winning a fantastic Sony Digital Camera at the same time?

Airport Hotel Shop - A Triumph For Accessibility

It has always been our goal at Airport Parking Shop to not only give you the best deals available on the web, but also to provide our customers with a website that is easy to use and accessible to as many people as possible. With our new [Airport Hotel Shop](#) website we are now very pleased to announce that after many weeks of careful planning and development, Airport Hotel Shop has now been validated as a fully accessible website, meaning that the site should be viewable by the majority of Internet Browsers, and also accessible to the visually impaired.

We have placed a great deal of care into the design of this site to ensure no matter what Internet Browser you use, or whether you are visually impaired or not, Airport Hotel Shop is still the best airport hotel booking site available.

For the more technical minded, this means that Airport Hotel Shop is now fully compliant with the Section 508 and W3 WAI Web Accessibility Standards as validated by Cynthia Says(tm) (an online verification tool, which is endorsed by the American Council for the Blind and the Newcastle New Deal for Communities project, amongst others).

In addition to this, both [Airport Parking Shop](#) and [Airport Hotel Shop](#) now have support for the more security conscious among you, by providing a seamless quote and results engine for customers who disable Javascript in their browsers.

With so much new functionality being added to Airport Parking Shop and Airport Hotel Shop, not only are we offering our customers a high quality service, but also a service where your valued input counts!
